DESCRIPTION

Welcome home to an exquisite upstairs condo in the coveted Evergreen Country Villas community—where comfort, privacy, and convenience unite harmoniously. As soon as you enter, you're greeted by soaring vaulted ceilings and an abundance of natural light, creating an open and inviting ambiance that makes this space feel both larger and welcoming. This thoughtfully designed layout features two spacious bedrooms and two full bathrooms, offering versatile options whether you're entertaining guests, working from home, or simply enjoying your daily life. The living area seamlessly transitions to a private balcony, while the primary bedroom boasts its own en-suite bath and a second balcony. With a washer and dryer located conveniently inside, your daily routines are made simpler and more efficient. Plus, the added benefit of one single-car garage and one carport space provides secure parking and valuable extra storage—an exceptional feature that enhances the overall appeal. Residents can indulge in the luxury of two pools, 2 spas and a sauna, creating an idyllic setting to relax, rejuvenate, and enjoy the best of community living. Don't miss your chance to make this beautiful condo your home!

Estimated Value

RealAVM™:	\$615,900	Estimated Value Range High:	\$665,000
Estimated Value Range Low:	\$566,700	Value As Of:	06/15/2026
Confidence Score:	88	Forecast Standard Deviation:	8

(1) RealAVM™ is a CoreLogic® derived value and should not be used in lieu of an appraisal.

(2) The Confidence Score is a measure of the extent to which sales data, property information, and comparable sales support the property valuation analysis process. The confidence score range is 60 - 100. Clear and consistent quality and quantity of data drive higher confidence scores while lower confidence scores indicate diversity in data, lower quality and quantity of data, and/or limited similarity of the subject property to comparable sales.

(3) The FSD denotes confidence in an AVM estimate and uses a consistent scale and meaning to generate a standardized confidence metric. The FSD is a statistic that measures the likely range or dispersion an AVM estimate will fall within, based on the consistency of the information available to the AVM at the time of estimation. The FSD can be used to create confidence that the true value has a statistical degree of certainty.
